

D1
said arcuate section and means for mounting said base on a vertical surface.

D2
5-26 (AMENDED). The holder of claim 16 wherein said base comprises a member extending generally perpendicular to said plane wherein said third rod [rods] extends from said member.

D3
7-32 (AMENDED). In combination, a hanger having a bottom member and a holder for said hanger, said holder comprising a base, first and second rods extending in a plane from spaced points on said [frame] base for supporting of the bottom said hanger, said first and second rods being connected by an arcuate section, at least a portion of said arcuate section being inclined relative to said plane, a third rod extending from said base to said arcuate section and means for mounting said base on a vertical surface.

D4
9-24 (AMENDED). The combination of claim [24] 22 wherein said third rod has an arcuate portion.

REMARKS

In response to the Advisory Action dated February 25, 1999, applicant's response to the final rejection filed January 15, 1999 was not entered because the proposed amendments to the claims were considered to be insufficient to place the claims in condition
